

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

SEPTEMBER 23.

The President, Dr. JOSEPH LEIDY, in the chair.

Forty persons present.

Remarks on Ticks.—PROF. LEIDY remarked that in his visit to Beach Haven, N. J. to spend the summer, he found the mosquito less numerous than usual, but in the earlier part of the season the Tick more frequent. One day, in June, after passing for a few yards among some *Myrica* bushes he picked eight of them from his clothes.
